APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the place of use of the waters of an underground source as heretofore granted under Permit 46474 is issued subject to the terms and conditions imposed in said Permit 46474 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.23 cubic feet per second, and not to exceed 83.5 acre-feet annually, and not to exceed a seasonal duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before:

N/A

Proof of completion of work shall be filed before:

N/A

Application of water to beneficial use shall be filed on or before:

January 23, 1998

Proof of the application of water to beneficial use shall be filed on or before:

February 23, 1998

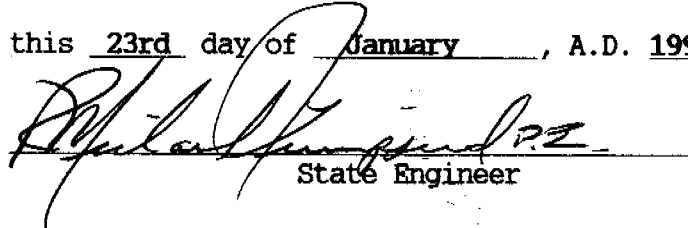

Map in support of proof of beneficial use shall be filed on or before:

CHANGE POINT OF DIVERSION (continued)

Alfred H. and Anna Lee Makhanian

11. The irrigation works include an existing well, pump, motor, pipeline(s) and ditches. The works have been completed and requisite proofs of completion work have been filed with the State Engineer under Permit 46474. No additional works are necessary.

CHANGE POINT OF DIVERSION (continued)

15. This application is being filed to reflect the actual place of use of the waters. The works necessary to irrigate these areas have previously been constructed. The supporting map for Permit 46474 shows the 16th section line on the East side of the pump (located within SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 17). After further review of the adjacent properties and locating section corners we have found Permit 46474 supporting map to be in error. The existing pump house is actually located within the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 17, as shown on the attached supporting map. (Permit 61887)
